

The GC5 "Bars To Me"

Visit "[Bars To Me](#)" on MotoLyrics.com

Early in the morning to an afternoon of toil and despair
You're always shooting yourself in the foot
From the food you eat, right down to the clothes you
wear
And the nights get long and lonely
And the sun refuses to shine
On a life that goes from day to day
With no reason and no time
All over town, the people resound with "We just wanna
be free"
No other way to face the day, that's what it means to
me
All of your life, you're under the knife, slaving to
routine
No mistakes to make if you wanna escape, looks like
bars to me
They shut you up the moment that you mention your
distractions and your dreams
So you shut your mouth and do the best you can
To live a life of secrecy
And you sing a song so free despite the threat of harsh
remand
And you laugh to yourself at those who keep their
heads buried in the sand
