Give me, give me, what I really need (2x)

Hold me, hold me, hold me in my sleep

Give me, give me, what I really need

All our children in there, doing something swell

Spread out what begins my Hell, there's nothing left in
our way

Give me, give me, give me what I need

Oh, give me, oh hold me, oh treat me for today

What I'm talking about (2x)

Is just the kind of things, of the doubt

Give me, give me, give me...

Give me, give me, give me what I need

Ooh...ooh...ooh...ooh...

Hold me, hold me, hold me in my sleep

Oh, hold me, hold me, hold me in my sleep
