What the fuck is this world
Running to you didn't
Leave a message at least I
Coulda' learned your voice one last time
Daily minefield this could
Be my time 'bout you
Would you hit me (x2)
Oh oh oh oh whoa whoa whoa ow
Woh
All the bills go by and
Initiatives are taken up
By the middle there ain't gonna be any middle any
more
And the cross I'm bearing home
Ain't indicative of my place
Left the porch (x2)
Oh oh oh yea
Hear my name take a good look
This could be the day
Hold my hand walk beside me
I just need to say
You fuck with me (x2)
I'll fuck with you
You fuck with me
I'll be there too
Dead head's are dead (x7)
God is dead
You'll be next
Dead head's are dead (x2)
Woh woh woh
??? ??????
?????? ???
This could be the day (x2)
I feel alone
I'll give my blood
I'll give my place
I'll give it all
To you (x2)
For you (x5)
We'll do it for you (x2)

You fuck with me
I'll fuck with you
I don't think I should
I don't take love to save myself
Don't you leave me all by myself
Don't you leave me the shit is up
Hey (x20)
Ooh ooh ooh yea
Yea yea yea yea
Wooaah
Hear my name take a good look
This could be the day
Hold my hand lie beside me
I just need to say
I could not take a-just one day
I know when I would not ever touch you
Hold you feel you in my arms never again
Yeah (x12)
Wooaahh
Wooaahh
Wooaahh
