Den Haag, Holland, 3/2/92)

He says to her he wants it easy  
He expects her, to be easy  
He wants it, to be, easy  
But she says no, but she says no, I don't want to  
She says no, she says no, I don't want to  
He expects it too, easy...

But she says stop, you gotta stop  
When he says go, you still gotta stop  
When she says stop, you gotta stop } (3x)  
When he says go, you still gotta stop }

He wants it, he wants it  
So badly he wants, he wants it  
But she says no, she says no  
She says, 'go to hell if that's all you want me for', she  
says no...

When she says no, you gotta stop  
When he says go, you still gotta stop  
When she says no, you gotta stop  
When he says go, you still gotta stop, yeah...

She did nothing to deserve it  
He just wants, he wants to observe it  
We sit back, like they taught us  
Keep quiet like they taught us  
He does nothin' to remove it  
He's just as hurt 'cause he wants to prove it  
We sit back, like they taught us  
Keep quiet, just like they taught us  
He just wants, he wants to prove it  
He's just hurt, she don't remove it  
We sit back, like they taught us  
Like they taught us, like they taught us
