Stockholm, Sweden, 6/25/92)

Oh, the first time...
Everyone always told me it would be better the first
time

There's nothing like the first, nothing will replace it
Never ever forget the first time...the first time...

I'm here to say
I'm here with proof
I'm a living example
That the second time around (2x)
It could be better
Better (3x)
The second time around

Let me tell you that there ain't nothing
There ain't nothing like your very first... fuck
The very first time, ain't nothing to live by
Trying to live your future, trying to live your past

The second time around, there will always be
There will always be a second time around
There will always be, there's got to be a second time
around
