Why is the girl that i like

Miles away from me

While the other girl i like

Is the girl that i can see

But the girl miles away

She found me first

But now there's two loves in my life

And i think i'm gonna burst

Chorus:

I need to stop and shout

There's a love bug inside me

It can't get out

And now it's starting to bite me

What's this all about

It's really starting to bug me

Which girl do i choose

Which girl do i lose

I love them both right now

But i have to choose just one

So tell me how

One's brunette one's blonde

But the question is

Which girl do i like more

Which one do i wanna kiss

And make out with on the floor

Chorus

Well the one that's closer

Will find some other guy

I have to choose soon

Or might heart will break and die

Chorus
