It was a man's world for a day and a half
Adam had a garden for a bachelor pad
But something was missing in his paradise
Then along came eve, the apple of his eye
Without hesitation he gave into temptation
Ã,ÂiÃ,Â®cause God created woman to raise a little
cain
Gave her a softer side, put fire into her eyes to drive a
man insane
He knew what he was doing, Ã,ÂiÃ,Â®cause history
has proven
Since God created woman man's never been the same
Old christopher columbus would have never set sail
Without a little push from isabel
Alexander graham invented the phone
So his wife could ring a bell when she wanted his home
Some feminine persistence can make a world of
difference
Ã,ÂiÃ,Â®cause God created woman to raise a little
cain
Gave her a softer side, put fire into her eyes to drive a
man insane
He knew what he was doing, Ã,ÂiÃ,Â®cause history
has proven
Since God created woman man's never been the same
It's all a part of the plan, for the good of every man
Ã,ÂiÃ,Â®cause God created woman to raise a little
cain
Gave her a softer side, put fire into her eyes to drive a
man insane
He knew what he was doing, Ã,ÂiÃ,Â®cause history
has proven
Since God created woman man's never been the same
