Won't fall on my sword

But any minute now I might fall through the floor

Hit so hard I wake up before I pass out on the ground

The apple of your eye

It seems to me I am all that you have sworn not to be

Hurts so hard I wake up before I pass out on the ground

The apple of your eye

I need this song to set me free

For all that I have to give

Is dying there right in front of me

Can't fail with this chord

It keeps my head up high, my feet on the floor

It's so hard my hand tightens at the very thought

But how it makes me come alive

I need this song to set me free

When all that I have to give

Is dying there right in front of me
