Can you take the bullet back?  
Change it to a heart attack  
My wish, I wonder could it be true?  
Sick fits form a former home, misfits under mistletoe  
One year spent waiting, waiting for you

This isn't what I wished for  
This isn't what I knew  
What can waiting do?

Date fall 1989, daydream of a valentine  
I couldn't wait to be added alone  
Jump forward to twelve years time  
Those dreams and a sad decline  
I'd just thought leaving, leave it alone

This isn't what I wished for  
This isn't what I knew  
What can waiting do?

What did we prove?  
Didn't we make this all come true?  
(I just keep hanging on for more)  
Didn't we choose?  
(Keep on waiting at the door)  
How did we lose?

Where did we let the reigns go loose?  
(I just keep hanging on for more)  
Didn't we choose?  
(Keep on waiting at the door)  
How did we lose?

Didn't we let the reigns go loose?  
(I just keep hanging on for more)  
What if we knew?  
(Keep on waiting at the door)  
How did we lose?  
Didn't we let the reigns go loose?  
Can you take the bullet back
