You're a few years overdue  
I spent them waiting here for you  
Now your charity's refused  
I can't name a penance for abuse

Twenty-four years overdue  
What kind of role model are you?  
Very least learn not to do  
I think I might be over you

Do hope I won't learn to make  
The same mistakes that you would  
Make me aware that only fear  
My only hope is letting go

Went on a limb for you  
Capsized when I turned twenty-two  
Did it burn as bad for you?  
No bottle serves to soothe my wounds

Do hope I won't learn to make  
The same mistakes that you would  
Make me aware that only fear  
My only hope is letting go  
My only hope is letting go

You're a few years overdue  
I spent them waiting here for you
