I never knew what brought me here

As if somebody led my hand

It seems I hardly had to steer

My course was planned.

and destiny, it guides us all

And by it's hands, we rise and fall

But only ofr a moment time

Enough to catch our breath again.

Chorus:

And we're just another piece of the puzzle

Just another part of the plan

How one life catches the other

Is so hard to understand

Still we walk this road together

We try and go as far as we can

And we have waited for this moment in time

Ever since the world began.

Takin' in the times gone by

YOu wonder how it all began

We never know and still we try to understand

And even though the seasons change

The reason still remain the same

It's love that keeps us holding on

Till we can see the sun again.

(REPEAT CHORUS EXCEPT LINES 3-6)

BRIDGE:

And I stand along

A man of stone

Against the driving rain

And the night it's got your number

And the wind it cries your name

Yet we seach for clues win or lose

Listening all the same

The hope still burns eternal

We're the keeper of the flame.

(REPEAT CHORUS)

CODA:

Ever since the world began...
