Everybody's cheering up tonight
Children's eyes reflecting candle light
Sleigh bells in every street
The world is waiting for Santa Claus to come
People feel that their hearts can beat as one
As one

(Enjoy the)
Wonderland, wonderland
Shining starts
Jingle bells
This time is filled with magic
Wonderland, wonderland
Shining starts
Jingle bells
The holy night is coming

Wonderland, wonderland
Shining starts
Jingle bells
This time is filled with magic
Wonderland, wonderland
Shining starts
Jingle bells
All over the world

Everyone who's lonely in this night
Step on to the street, no dark, think twice
Leave your heartache behind, light up a candle
The magic's inside of you
Let the strangers around you feel it too
Feel it too

(Enjoy the)
Wonderland, wonderland
Shining starts
Jingle bells
This time is filled with magic
Wonderland, wonderland
Shining starts
Jingle bells

The holy night is coming

Wonderland, wonderland
Shining starts
Jingle bells
This time is filled with magic
Wonderland, wonderland

All over the world

Leave your heartache behind, light up a candle
The magic's inside of you
Let the strangers around you feel it too
Feel it too

Wonderland, wonderland
