#### Verse 1:

How did you see  
Such beauty in me  
Oh where was I, when I caught your eye  
Here just like eve  
I hide and deceive  
Trying to keep you away from the real me

#### Chorus:

And this is the part, where I find myself fallin, fallin,  
Fallin into your dreams  
And this is the part, where you came, lookin, searchin,  
hopin  
To find a way into my dreams

#### Verse 2:

Oh if you found me  
Would you be tempted to leave  
Or would you find a way for me to,-- let go of myself  
I feel the need  
Before you proceed  
To warn you my tendencies to fight what I don't know

#### Bridge:

I'm just trying to keep my cool  
I'm just not to look like a fool  
AND You settle my wondering heart  
You took my hand and we jumped off
