Girl Verse 1:

When the world begins to end
I will still be here my friend
So open your heart
Open your mind
Tonight's the night for you and I

Guy Verse 1:

Give it time, give it some space
Don't you fret my love, my heart will find it's way
Neither the mountains or the seas
Can keep you away, away from me
Soon I'll be where, your beautiful eyes can see

Chorus:

Let's dance away like two birds in the sky----
--- Let's forget the day like 2 butterflies
I know, you know, and
You know, I know, that
This moment was made for you and I

Verse 2:

Can you hear the stars tonight
Greet the moon while passing by
Can you feel the love
Stirring tonight
Making sense of ou-r time

Verse 3:

Can you see the sun peek out
To see what beauty's all about
You shine like the stars, with love deep as night
I think I'll fall into your sky

Bridge:

Lets dance the night away
Like two birds in the sky of gray
Lets take this moment cause it's not too late
Take to the sky and fly away
