"Coming Home"

If the truth is hard to carry
And we feel like letting go
Open up your heart, open up your mind

If you feel a little weary
And you hold a heavy soul
Open up your heart, open up your mind

I can't believe I'm coming home
I can't believe I'm coming home
I can't believe I'm coming with all of you here by my
side

Imagine we are older
It's easy if you try
Open up your heart, open up your mind

And if only we were wiser
And time was on our side
Open up your heart, open up your mind

I can't believe I'm coming home
I can't believe I'm coming home
I can't believe I'm coming with all of you here by my
side

But wait, no, it's been so long now
Would somebody please help me get to where I'm
going?
And no, oh, some might strike out
And find a way where I'll be long

I can't believe I'm coming home
I can't believe I'm coming home
I can't believe I'm coming back home
