"Au revoir dorthee"

Visit "[Au revoir dorthee](#)" on MotoLyrics.com

nothing stays the same
we all gotta move in our own
way baby
you'll always stay in our hearts
because no distance will keep us
apart
our friendship's been so strong
you know that here you will always
belong
riding side by side
we'll always remember the good
times

when times are tough and the
rain just keeps falling
when life is rough and the
dark clouds are forming
I think of you and the
sky clears before me
it's all the good times
my mind is recalling

au revoir Dorthee
we'll ride together another day
so let's not say goodbye
we'll meet again at another time
au revoir Dorthee
we'll see you again, we'll find a
way
so let's not wave goodbye
we'll always be friends no need
to cry

when times are tough and the
rain just keeps falling
when life is rough and the
dark clouds are forming
I'll think of you and the
sky clears before me
it's all the good times
my mind is recalling

when times are tough and the
rain just keeps falling
when life is rough and the
dark clouds are forming
I'll think of you and the
sky clears before me
it's all the good times
my mind is recalling

lets not say goodbye
lets not say goddbye
lets not say goodbye
lets not say goodbye
lets not say goodbye
lets not say goodbye
lets not say goodbye
lets not say goodbye

when times are tough and the
rain just keeps falling
when life is rough and the
dark clouds are forming
I'll think of you and the
sky clears before me
it's all the good times
my mind is recalling

fade

when times are tough and the
rain just keeps falling
when life is rough and the
dark clouds are forming
I'll think of you
and the sky clears before me
it's all the good times
my mind is recalling
