A smile will always beat a frown
So turn your worries upside down
The sun will rise and shine again
Smile with me and be my friend

Ooooh!

Squash your face up against the glass
And watch your worries rushing past
Spring will come at winter's end
Smile with me and be my friend

Ooooh!

Be my friend
Be my friend
Be my friend

There's no need to be feeling down
Just call on me and I'll be around
Trust in me and the time we spend
Take my hand and be my friend

Ooooh!

Rest your head on the window pane
And stare outside at the pouring rain
The sun will rise and shine again
Smile with me and be my friend

Ooooh!

Be my friend
Be my friend
Be my friend
