my father said set your dreams that you want for life
a road without an ending will just get you in strife
so now I'll try and reach the sky and make my
dreams come true
and in the quiet late at night
I think I'll dream for you

I'll dream
dream dream for you
I'll dream
cuz dreams dreams dreams come true

sometimes life can seem real hard and things don't
go to plan
but I'll give it all I've gotta give I'll do the best I can
now I could win all my dreams and have them all
today
but without you in my memory
I'd cry my life away

I'll dream
dream dream dream for you
I'll dream
cuz dreams dreams dreams come true

I'll keep you close to my heart
if you tell me where to start....

I'll dream
dream dream dream for you
I'll dream
cuz dreams dreams dreams come true

I'll dream
dream dream dream for you
I'll dream
cuz dreams dreams dreams come true
