School is out, it's the start of the weekend
Grab the phone, call the girls and guys
We're out in the sunshine, riding and a-laughing
Until we see the stars at night

And when those horses fly over the jumps, yeah!
It makes me feel so alive
And then later on we'll sit around the fire
And I'll want you to hold me tight

Come on everybody, come on everybody
Come on everybody, come on
Come on everybody, come on everybody
Come on everybody, come on

Parrots crisp from the tops of the trees
And the sunlight blinds my eyes
There's nothing so exciting as when we go out riding
And the whole world's flashing by

Every field's a racecourse and on the back of my horse
Is the only place to be
It's time to up the pace, the wind is in our face
And you're riding next to me

Come on everybody, come on everybody
Come on everybody, come on
Come on everybody, come on everybody
Come on everybody, come on

Can't you see that it's a passion of mine
Riding high until the end of time
It's like a bolt of lightning that carries you away
This is how life should be, each and every day!

Come on everybody, come on everybody
Come on everybody, come on
Come on everybody, come on everybody
Come on everybody, come on

Come on everybody, come on everybody

Come on everybody, come on
Come on everybody, come on everybody
Come on everybody, come on

Come on everybody, come on everybody
Come on everybody, come on
Come on everybody, come on everybody
Come on everybody, come on

Come on everybody, come on everybody
Come on everybody, come on
Come on everybody, come on everybody
Come on everybody, come on
