

Saddle Club, The "Friends To Be"

Visit "[Friends To Be](#)" on MotoLyrics.com

I like the way that I see myself
I'm not another book just stacked on a shelf
I like the way I am, the clothes that I wear
My funny laugh and the color of my hair
What people think I'll never know
Cuz the sun always shines and the wind always blows
Even when I'm feeling down
I know my feet will always be on the ground

I like clear sunny days, big leafy trees
The sound of the waves and the honey from the bees
There's so much more to me if you take the time to see
I'm not a mystery, it just takes time for friends to be

I know my heart and the things that I feel
I know it sounds crazy, but I know it's for real
I like the time I have on my own
I never feel lonely when I'm in my own zone
What people think and the things they can say
Can get you down and mess up your day
But it don't bother me, cuz I'm happy my way
Believe in yourself and friends will find their way

I like chocolate cake, the stars up in space
And the feel of the rain falling down on my face
There's so much more to me if you take the time to see
No-one is a mystery, it just takes time for friends to be

Clear sunny days, and big leafy trees
The sound of the waves and the honey from the bees
There's so much more to me if you take the time to see
I'm not a mystery, it just takes time for friends to be

It just takes time for friends to be
