

Saddle Club, The "Happy Every Day"

Visit "[Happy Every Day](#)" on MotoLyrics.com

Let's go outside, the sun is shining through
There are great things that good friends can do
You are my best friends and what I'm feeling's true
I can do anything when I'm with you

I'm happy every single day
When I'm with my friends, when they come to play
I'm happy every single day
You are my best friends, and best friends we will stay

Running around, chasing butterflies
laughter and fun with these friends of mine
You are my best friends and what I'm feeling's true
I can do anything when I'm with you

I'm happy every single day
When I'm with my friends, when they come to play
I'm happy every single day
You are my best friends, and best friends we will stay

My friends know the secrets we are keeping
Fun and games is what we're always seeking
We will never argue or fight
When you smile it makes me laugh and I just can't be quiet

I'm happy every single day
When I'm with my friends, when they come to play
I'm happy every single day
You are my best friends, and best friends we will stay

I'm happy every single day
When I'm with my friends, when they come to play
I'm happy every single day
You are my best friends, and best friends we will stay
