Hey hey what you say
Come on round and lets go play
In the sun we'll take a run
When it rains, we'll cover up
We can laugh and we can talk
Tell each other things we know
See some friends along the way
Hey hey what you say

Hey hey what you say

Hey hey did you know?
We've got places to explore
Lots of things to be seen
Then we'll find them in our dreams

I'm so glad I've got you there
All the stories that we share
Hours of chatting on the phone
Hey hey did you know?

Hey hey what you say
Come on round and lets go play
In the sun we'll take a run
When it rains we'll cover up
We can laugh and we can talk
Tell each other things we know
See some friends along the way
Hey hey what you say

Hey hey what you say
Hey hey what you say
Hey hey what you say
Hey hey what you say
Hey hey what you say
