

Saddle Club, The "In denial"

Visit "[In denial](#)" on MotoLyrics.com

how do you know when you're falling
cuz everything seems so surreal
how do you know that it's love calling
it's just the magical way you feel

I feel so warm when I'm around you
the sparkle in your eyes they hypnotize
my heart pounds, my heart pounds
feels so right I'm finally having fun now
when it's time to leave do want to say bye
I don't think so

I think I'm falling for you
but I'm in denial
I know I'm scared that it's true
I like it alot
I think I'm falling for you
but I'm in denial
it's bad but I know it's the way to go
the way I feel baby
when I am with you

how do you know you're not just dreaming
when it feels just too good to be real
how do you know your bubble won't burst yeah
I won't be left just hanging there up in the air

I think I'm falling for you
but I'm in denial
I know I'm scared that it's true
I like it alot
I think I'm falling for you
but I'm in denial
it's bad but I know it's the way to go
the way I feel baby
when I am with you

love is everything I've wanted to know
this is everywhere I've wanted to go
it can make you feel so unreal
this is everything I've wanted to feel

I feel so warm when I'm around you
the sparkle in your eyes they hypnotize
my heart pounds, my heart pounds
feels so right I'm finally having fun now
when it's time to leave do you want to say bye
I don't think so

I think I'm falling for you
but I'm in denial
I know I'm scared that it's true
I like it alot
I think I'm falling for you
but I'm in denial
it's bad but I know it's the way to go
the way I feel baby
when I am with you

I think I'm falling for you
but I'm in denial
I was scared that it's true
but now I'm not
I think I'm falling for you
but I'm in denial
it's bad but I know it's the way to go
the way I feel baby
when I am with you
fade

I think I'm falling for you
but I'm in denial
I was scared that it's true
but now I'm not
I think I'm falling for you
but I'm in denial
it's bad but I know it's the way to go
the way I feel baby
when I am with you
