Ooh I like it
Ooh I like it
Ooh I like it

Hey girl how'd you do it
Hit before I knew it
I didn't stand a chance
Love the way you tease me
Love the way you mess me about
You got me in a trance
You know that I like your way
You know that I like your way

Keep a movin' girl, you know that I like your way
Ooh I like it
Keep a movin' girl, you know that I like your way
Ooh I like it

Girl you mesmerize me
Totally surprise me
I was yours in a glance
Girl how did you do it
Hit before I knew it
I didn't stand a chance
You know that I like your way
You know that I like your way

Keep a movin' girl, you know that I like your way
Ooh I like it
Keep a movin' girl, you know that I like your way
Ooh I like it
Keep a movin' girl, you know that I like it
Keep a movin' girl, I get so excited
Keep a movin' girl, you know that I like your way
Ooh I like it
