My sunshine
Will keep me warm until I lie
In your blue eyes
Until the stars fall from the sky
And this whole world leaves us behind
And til the end I will be yours and you'll be mine

My sunshine
A little you is all I need
To get me through life
There's nowhere else I'd rather be
Than here with you now my sunshine
And til the end I will be yours and you'll be mine

Sunshine, sunshine

My sunshine
You are everything to me
Stay by my side
There's nowhere else I'd rather be
than here with you now my sunshine
And til the end I will be yours and you'll be mine

Sunshine, sunshine

My sunshine
My sunshine
