Spare my heart  
But please come and tell me  
Before you tear it apart  
My hearts gotta say  
It's trying to tell you that  
Oop oopee doop I love you

Don't go away  
I want to be near you  
And I want you to stay  
No matter what you do  
I gotta tell you that  
Oop oopee doop I love you

We're going out today  
We're gonna sing and play  
And dance until the sun goes down  
When you see that it's so fun  
I know you'll be my number one  
My number one!

So now we're together  
I hope that it's forever  
And you'll stay here with me  
Cause bells are ringing  
My heart keeps on singing to me  
Oop oopee doop I love you  
Oop oopee doop I love you  
Oop oopee doop I love you
