Once in a while  
I've caught your smile  
So please take a chance  
And say that you'll come to the dance

Please come tonight (I just can't wait)  
Everything's right (So don't be late)  
Our stars will shine bright (At the dance tonight)  
At the dance tonight

So baby come on  
This feeling is strong  
Tonight is for teenage romancing  
So tell me that you'll come dancing

Please come tonight (I just can't wait)  
Everything's right (So don't be late)  
Our stars will shine bright (At the dance tonight)  
At the dance tonight

Love can be so unreal  
But that's the way it goes  
Don't be so shy girl  
Tonight we will know

Please come tonight (I just can't wait)  
Everything's right (So don't be late)  
Our stars will shine bright (At the dance tonight)  
At the dance tonight

Please come tonight (I just can't wait)  
Everything's right (So don't be late)  
Our stars will shine bright (At the dance tonight)  
At the dance tonight
