### "Sleeping Under The Stars"

Visit "[Sleeping Under The Stars](#)" on [MotoLyrics.com](http://MotoLyrics.com)

When it's time to rest at the end of the day  
And everyone gathers round  
You share a laugh and you've gotta agree  
It's the perfect spot that we found  
What if we wake up and the sun is shining

We're sleeping under the stars  
The moon is dreaming, tomorrow we'll be home again  
Just camping out with my friends  
We'll pitch a tent and we'll gather wood to light a fire  
We're camping out, we're camping out

Lay the blankets down well you've got to stay warm  
Telling stories all through the night  
Then you drift asleep and the fire burns out  
With a happy feeling inside  
What if we wake up and the sun is shining

We're sleeping under the stars  
The moon is dreaming, tomorrow we'll be home again  
Just camping out with my friends  
We'll pitch a tent and we'll gather wood to light a fire  
We're camping out, we're camping

And when the moon glows  
I'll be your window  
We'll be the best of friends  
Walking beside you  
Helping you get through  
Our happiness will never end

What if we wake up and the sun is shining

We're sleeping under the stars  
The moon is dreaming, tomorrow we'll be home again  
Just camping out with my friends  
We'll pitch a tent and we'll gather wood to light a fire  
We're camping out, we're camping out  
We're camping out, we're camping out
