

## Saddle Club, The "Stars Tonight"

Visit "[Stars Tonight](#)" on [MotoLyrics.com](https://MotoLyrics.com)

I can see all the stars tonight  
I can see all the stars tonight  
I can see all the stars tonight  
I can see all the stars tonight

I can't believe my eyes  
There's nothing else in the sky  
They glitter and shine for all of the world  
Forever we gaze wondering why

I can see all the stars tonight  
I can see all the stars tonight  
I can see all the stars tonight  
I can see all the stars tonight

I can't believe my eyes  
A shooting star just fell through the sky  
Sharing all of it's magic for all who are here (To witness  
a power shower)  
I make a wish, grant me my dream

I can see all the stars tonight  
I can see all the stars tonight  
I can see all the stars tonight  
I can see all the stars tonight

I can see all the stars tonight  
I can see all the stars tonight  
I can see all the stars tonight  
I can see all the stars tonight
