Let's stroll through the trees and find our own way
A friend's all you need to make a blue sky from grey
Such a wonderful place to let the time pass away
There aien't no race so let's stay here all day

Cuz I Won't forget a friend like you
And the time that we've spent making dreams come
true
The breeze in the trees is singing our song
You're the best friend that I've ever had
So let's stay here all day
Let's stay here all day

The smile on your face really takes me away
Such beauty and grace, I could stay here all day
Drift into twilight, singing our song
We could send out invites and all our friends can come
along

Cuz I won't forget a friend like you
And the time that we've spent making dreams come
true
The breeze in the trees is singing our song
You're the best friend that I've ever had
So let's stay here all day
Let's stay here all day
Let's stay here all day
Let's stay here all day
Let's stay here all day
