

Saddle Club, The "What I Believe"

Visit "[What I Believe](#)" on MotoLyrics.com

You never know quite what to do
Seeing something that's brand new
A change can be so good for you
That's what I believe

You know you're you, you're no-one else
You have to learn to trust yourself
And take a jump right off the shelf
That's what I believe

What you believe will set you free
You can feel it so easily
Oh, ohhh that's what I believe

There's problems there from day to day
Your friends will help along the way
They feel them too, so come what may
That's what I believe

You've always got to stand and fight
You know what you believe is right
To keep your goals within your sight
That's what I believe

What you believe will set you free
You can feel it so easily
Oh, ohhh that's what I believe

What you believe will set you free
You can feel it so easily
Oh, ohhh that's what I believe

What I believe
