There's a dream I can remember
I've dreamt it many nights
A magic creature comes to me
A black stallion, horse of flight

With wings of shining ebony
And eyes that look for me
He wears no tackle costume
Strong, and beautiful to see
He nuzzles at my neck
He surely wants to ride
I climb onto his back before he checks
I'm holding tight

We canter through a forest so enchanting
Where the people everywhere smile cuz they're happy
We ride a velvet ride that takes us through a clearing
To the edge of the world

And then we're flying through the sky tonight
My friend beats his wings to a song of power and might
Mystical places of happiness and peace
A wonderland
My land of dreams

Dashing over moonbeams, making lightning in the sky
Racing round on Saturn's rings
Stardust blazes behind
We follow golden rays and find a brand new day
Black pegasus, I'll wait for you
To come take me away

We canter through a forest so enchanting
Where the people everywhere smile cuz they're happy
We ride a velvet ride that takes us through a clearing
To the edge of the world

And then we're flying through the sky tonight
My friend beats his wings to the song of power and
might
Mystical places of happiness and peace

A wonderland

And then we're flying through the sky tonight
My friend beats his wings to the song of power and
might

Mystical places of happiness and peace

A wonderland

My land of dreams (Of dreams, of dreams)

My land of dreams (Of dreams, of dreams)
