Goin' crazy

We can sit for hours
Talk about anything
Hang for hours
Not a single word need be said
Just one look, you know how I feel
In this mixed-up insane world, you're the one thing
that's real

And when I first saw you
It was, uh-huh, I just knew
I adore you, you're crazy, sexy, cool
Again and again, you have proved
When I need to depend on anyone it's you

So many reasons why you are my only one
So many reasons why I just can't get enough
So many reasons why our love is strong
It's you, it's only you, you're making me crazy for so
long
Crazy for so long

You have your moments, sometimes I have mine
We both show Dr. Jekyll/Mr. Hyde
All my ugly bits and pieces you see
The brilliant part is,
You still want me

So many reasons why you are my only one
So many reasons why I just can't get enough
So many reasons why our love is strong
It's you, it's only you, you're making me crazy for so
long

You know when I say
It's the truths of thruths
Whatever life may bring
I'll face it with you, yeah

You drive me crazy, crazy, yeah

Crazy for so long

In this mixed-up insane world you're the one thing
that's real

So many reasons why you are my only one
So many reasons why I just can't get enough (Goin'
crazy)
So many reasons why our love is strong
It's you, it's only you, you're making me crazy for so
long

So many reasons why you are my only one
So many reasons why I just can't get enoouough
(So many reasons why our love is strong)
It's you, it's only you, you're making me crazy for long

So many reasons why you are my only one
So many reasons why I just can't get enough (Crazy for
so long)
So many reasons why our love is strong
It's you, it's only you, you're making me crazy for so
long

Crazy for so long
