"Sister To Me"

I knew right from the start that we were gonna stick
together
Something in my heart told me that we'd be friends
forever
Sometimes I think you're trying to put my paitence to
the test
You know you drive me crazy but it's us against the rest

You're like a sister to me
You take me as I am, the good the bad and the ugly
You're like a sister to me
Right now and you'll always be
Just like a sister to me

Oooh, a sister
Ooooooh

You always make a scene, I guess that's what I like
about you
I've got a reputaion that I couldn't keep without you
We're gonna do it our way, coming ready or not
So let's put our heads together, show the world what
we got

You're like a sister to me
You take me as I am, the good the bad and the ugly,
Oooh!
You're like a sister to me
Right now and you'll always be
Just like a sister to me

You're like a sister to me
You take me as I am, the good the bad and the ugly,
Oooh!
You're like a sister to me
Right now and you'll always be
Just like a sister to me
