Allies, come on baby give us a try
Villain, you know girl we only come out at night
Cool, beat it down, you know the nightmares only
begun
Good luck, good night, fair well!

You know that,
Know that baby
Stalking around,
Got this demon walk,
Got this demon talk,
Been married to the sidewalk all night long,
You know that,
Know that baby
Stalking around,
Got this demon walk,
Got this demon talk, been right with you whole time

Burn down all your fucking neighbours
Burn burn every single trap door,
We need all your fucking heroes stripped back down to
all there

Bones and babies, weeks and dailies, bones and
babies,
We see what they see.

You know that,
Know that baby
Walking around
Got this demon walk,
Got this demon talk,
Been married to the sidewalk all night long,
You know that,
Know that baby
Stalking around,
Got this demon walk,
Got this demon talk, been right with you whole time

Yeah, all my live.
