When you hide next to me  
With your eyes up close to me  
I hear footsteps in the dark  
When you hijack my heart

Cool breeze down the hall  
I can feel you breathe  
Outside my door

Bang bang bang  
On the wall  
From dusk til dawn

Do do do do (2x)

Bang bang bang  
On the wall  
From dusk til dawn

Do do do do (2x)

Bang bang bang  
On the wall  
From dusk til dawn

When you sense you're not alone  
And the darkness starts to moan  
Who's There?

Shadows all around  
But you don't make a sound  
Voices in my head  
Playing like an echo, echo

Bang bang bang  
On the wall  
From dusk til dawn  
Do do do do  
Do do do do
