"Anybody But Me"

Visit "[Anybody But Me](#)" on MotoLyrics.com

When I'm not that strong save me
When I don't belong take me
To the place I've longed for baby
Cause I never thought I would need'
Anybody but me, anybody but me

And when I'm near you
Colors seem so bright
When I'm with you
My demons stop the fight
Don't you ever get out of my sight
Don't you ever cut me out

When I'm sick of it all heal me
In this cold cold world feel me
And when things go wrong fix it for me
Cause I never thought I would need'
...Anybody but me anybody but

When I'm lost at sea bring me
To the safest shore lead me
To that open door, free me
Cause I never thought I would need'
Anybody but me

And when I'm near you
Colors seem so bright
When I'm with you
My demons stop the fight
Don't you ever get out of my sight
Don't you ever cut me out of your life
