I am what I am just let me be
Keep your mind free and then you'll see
No regrets, no fee if you don't accept me
I am what I am a person like you
Keep you're mind free and I'll lead you through
All your wishes are coming true

,Darkest ages, Narrow-minded pages
...They're all gone
Evolution creates a revolution
And finally I'm home

I am what I am just let me be
Keep your mind free, maybe then you'll agree
No regrets no fee If you don't accept me

Cause you are what you are'
The difference makes it beautiful
Keep your head up high
Raise your eyes to the sky
Don't let chances pass you by

?Maybe you're against any kind of tolerance
!So sit down and relax! No misery no aches
