Can't you see what's happening  
?Can't you feel it coming  
We're on a dead end  
We have to take a stand  
A Human collective demand  
It's in our Hands

Someone already asked  
?Where is the love  
My heart skips a beat  
In this enormous crowd  
I'll be silently loud  
Saying what's on my mind

When will we understand  
This is the only time  
To get it right  
Get a peace of mind  
This is the final fall  
This is a black hole  
A big question mark  
With nothing before

Belief is not a faith  
Make sure you won't be confused  
,There's a short fuse  
Between the lines  
Between our minds  
We can only lose

But if we take a stand  
A human collective demand  
Open our eyes  
...In the chase after truth  
We will be the proof  
To existence of paradise

When will we understand  
This is the only time  
To get it right  
Get a peace of mind

This is the final fall  
This is a black hole  
A big question mark  
With nothing before
