"Want"

Visit "[Want](#)" on MotoLyrics.com

you can look me in the eyes
your can smack me wanna fly
it's a miracle
you can find it any way
that im asking you to stay
baby me and you..

dont you ever think about
dont you leaving me to die
im in love with you
will i ever gonna learn
at my heart will ever burn
that im here with you

and i want you to be
i want you to see
i want our love to be free
and i want ya back
i need you the back
back to me baby
dont let it end

and i want you to be
i want you to see
i want our love to be free
and i want ya back
i need you the back
back to me baby
dont let it end

i want to be free love
i want to be free love
i want to be free love
i want to be free love
i want to be free love
i want to be free love
i want to be free love
i want to be free love

will i ever be alive
will i ever see another day with you?

my mind's telling me to go
my heart's telling me to crawl back to you

they will come and you will know
you will tell me that im wrong that im not for you
will my love be ever free
and my heart will ever sing
this song to you..

and i want you to be
i want you to see i want our love to be free
and i want ya back i need you the back
back to me baby
dont let it end

and i want you to be
i want you to see i want our love to be free
and i want ya back i need you the back
back to me baby
dont let it end

i want to be free love
i want to be free love
i want to be free love
i want to be free love
i want to be free love
i want to be free love baby
i want to be free love
i want to be

and i want you to be
i want you to see i want our love to be free
and i want ya back i need you the back
back to me baby
dont let it end

and i want you to be
i want you to see i want our love to be free
and i want ya back i need you the back i need you the
back...

sing sing...

want from me...

sing sing...

it's a miracle.....
