Somewhere the sun is shining
Somewhere the moon is rising
I'm sitting here

Somewhere someone is laughing
Somewhere something is happening
I'm dying here
Let's go, let's go

Stuck in my car, trying to get to you
Stuck in my car, nothing I can do
Turn the radio up and scream along
Stuck in my car, stuck in my car

Slow motion disaster, wish I could go faster
I'm standing still, I know the world is spinning
But it never brings me any closer, closer to you
Let's go, let's go

Stuck in my car, trying to get to you
Stuck in my car, nothing I can do
Turn the radio up and scream along
Stuck in my car, stuck in my car
Come on, come on

Ooh, get me out of here
Ooh, I gotta go, I gotta go
I gotta go
