Who be in a Japanese restaurant
Eating sushi
Drinking saki, it's me
And my mummy with the ?
Cuties smelling like Tiaki
I have 'em for the pain thing
For now lets call her Suki
Got me booty banging, properly
In Versace pants
Cocky boot legged stance
A things of beauty
Watch me while you crave me
Burns like major Foxy nows in navy
Truly reasons to bug the tooty in
Keep laced and feel them watch you
But make sure that you're one of a kind
And you deserve to be my sunshine

Chorus:
You touch me with a heart of gold (uh huh)
I can't go a day without my sunshine (sunshine)
Touch me with a smile of gold
I can't go a day without my sunshine
Sunshine (uh uh uh uh)

People are pressing all time
Cats with love, they creep (uh huh)
Just to say they
Crept with mine, slept with mine, she said
I ain't deaf nor blind express hating 'cause they're less
than mine
Gonna respect me
We chose each other
You acted like you chose me
They oppose you they oppose me
We could creep at a low speed
Forgetting the hosiery, double cross you
They got to triple cross me
I'm thinking thats the way it's supposed to be
One more thing
If I ever go broke

You hit the block for me, sure, supa fly
Eyes open wide
Put that on everything
I put that on my life
Right

Chorus:

You touch me with a heart of gold (uh huh)
I can't go a day without my sunshine (sunshine)
Touch me with a smile of gold
I can't go a day without my sunshine
Sunshine

If I needed would you, give me your kidneys
Sure
Catch a case you catch it with me
mm sure
Pawn your jewelry to come get me
You better know
Catch me with a chick
Forgive me?
Now that, well
This is the truth I shall
Go to the loot get swell
I put this on my neck
You was from the smallest to the ?
Me and you balling from heaven go to hell
Won't let you hit the ground, if I'm falling myself
I won't be leaving you In this cold world, brawling for ?
Its me and you old girl, taking the belt
From the lows to the highs
To the fold we shine
Just pretend you'll be my sunshine

Chorus:

You touch me with a heart of gold (uh huh)
I can't go a day without my sunshine (sunshine)
Touch me with a smile of gold
I can't go a day without my sunshine
Sunshine x2
