You built it up then you tear it down  
Burn it down to the ground!

It's Vietnam 1974  
Hold your breath you better lock your door  
Join the army see the world they say  
You better do it the American way

The enemy is near so watch your back  
It's aeroplane with an American flag  
Friendly fire! unexpected attack

What was so called Watergate affair?  
I don't know and I don't care  
But I know what has Nixon done  
To the warfields of Vietnam  
58.000 Santa-soldiers gone  
Mr. President was that your goal?  
"this is the price for the Vietnam war"  
My ass! my ass!

Cause rainbow is still in shadows  
She's standing on platform  
Waiting for train to come  
Rainbow is still in shadows  
She's standing on the platform  
Waiting whole night long
