"Places You Have Never Seen"

Visit "[Places You Have Never Seen](#)" on MotoLyrics.com

New Year's broken time stands still
Hugging toilet love affair
Dating with lavatory bowl
At places that you've never seen

Fasten seat-belt party's gone
Travel to the dawn of time
Can you tell me where have you been?
At places that you've never seen
First stop the Eternia second South Utopia
Welcome to my perfect dream
And places that you've never seen

Houston we have a problem!
Wax dolls chasing me through tunnel
I can't move my legs
With head on the floor eyes open wide
I see my body where is my mind?
Can't control my brain

Why don't you take a tour I'll pay the bill
Everybody seems to go to garden hill
The garden of Eden
The place that you have never seen

So wash your throat and join the trip
Enter the world of endless sleep
A secret corner in your dream
The place that you have never seen

Planet Schizophrenia galaxy Insania
I see the light what does it mean?
That you're in place you've never seen

Last station the end is near
My head is sober mind is clear
Can you tell me where have you been?
At places you have never seen
