"Planet Xanax"

Visit "[Planet Xanax](#)" on MotoLyrics.com

Tell me what's wrong with this planet
All around me dumb people playing smartass
"perfect system a genius built it"
I don't wanna be a part of it
I just want to leave this planet

I'm off to the planet Xanax
Hard times all the people seems so smart

Blind leading blind straight to the abyss
Acting like a female praying mantis
Everybody wants their piece of promise land
Open wide your third eye dumbass!

I don't want it I don't need it
I just want to leave this planet

I'm off to the planet Xanax
Hard times all the people seems so smart
But I'm not built that way to climb climax
So I'm off to the planet Xanax
Planet Xanax
