Every single day there's a same old story
I'm sick and tired of this same old story
Devils parade! devils parade!
I'll paint the world without devils soldiers
No gods, no masters, no flags, no borders
No devils parade! devils parade!

Demons in disguise with their Ray-Ban glasses
CIA badges and McMurderers meat axes
Devils parade! devils parade!
Global threat infernal plague infection
Is there a cure for sinful pitiful nation
Devils parade! devils parade!

So get your ass off the skateboard
Stop being lame and getting bored
Superman is paralyzed
There's no one else to save our lives
Demons from dark brotherhood
They mostly came from Hollywood

But The Devil came from Texas
With legion of intruders
Stone-cold executors
Will do some legal murders
