[Jay-Z]

By the way yo

Yo, how the fuck you gonna talk about MC's on our hill

When we just cop them things homey the chromy wheels

Both arms are chunky the sleeves on chill

Any given times 100 G's in your grill

Don't talk to me bout MC's got skillz

He's alright but he's not real

Jay-Z's that deal with seeds in a field

Never fear for war, hug, squeeze that steel

Fuck, you gotta a flow that's cool with me

You gotta lil' dough that cool with me

You gotta lil' cars, little jewelry's

But none of y'all motherfuckers could fool with me

You know the wrist frost bit minus 2 degrees

Bout as blue as the sea the way I manuever the V

Hat cocked can't see his eyes, who could it be?

With that new blue Yankee on

Who but me?

Niggaz shift 2 million, then I blew the 3

Then I skated the 4, before I went on tour

I came back and it's plain

Y'all niggaz ain't rapping the same

Fuck the flow y'all jacking our slang
I seen the same shit happen to Kane
3 cuts in your eyebrow trying to Wild out
The game is ours, we'll never foul out
Y'all just better hope we gracefully bow out
Throw your hands up
Niggaz, Bitches, Bustas, Hustlers FUCK THAT
(Throw the hands up)
