

The Gone Jackals "Business as Usual"

Visit "[Business as Usual](#)" on MotoLyrics.com

Well, it is such a useless waste
Filing all those folks away
But it's business as usual, today.

See, they were tryin to get over
On a market that s been cornered
(carved by ol joe kennedy, and his like).

It doesn t have to be this way,
The stigma s built to tilt the play.
It doesn t have to be that way.

Between lorrillard and escobar
The difference is who writes the laws
When genocide s a racket in itself.
There is no debt to be fulfilled
By making people criminals
And turning loose the damned instead.

The competition
Is made the villain.
This market s covered
By bad muthas.

It doesn t have to be this way.
I hope I m free to see the day
When business ain t so usual - one day.
