it's gettin' harder and harder to do this thang
without slappin' somebody, man
jackin' somebody, man
twenty five lacerations to the man
and put it back to the back of the body bag
I woke up in a cold sweat
was just a dream
lookin' down the barrel of an infrared beam
when things couldn't get any worse it seemed
pat-pat-pat from a distant M-16
no need to guess, I got dressed in a ??
end up gettin' pulled over by the man
down to the station and quest-ti-aned
where were you around three nineteen?
I was at the house looking down the barrel of an
infrared beam
when things couldn't get any worse than seems
I got chopped up and they got chopped up by the chop
shop team
