"Dear Sister"

Like a butcher that picks on the day's remains
Purchased on the TV
Lackadaisical, lacking any will to be
Anything other than depressing

Dear sister
I really miss her a lot
I kind of think it was working out
You said once I was looking so lost
Have I ever looked found?

Like a vampire out on the balcony
Breaking and entering
Like a devil, like an angel without wings
No harp, this halo's going to hang me
Dear sister
I know you miss him a lot
Maybe it was never meant to be
You said once that you were feeling so lost
Who were you missing?

Like a devil, like an angel without wings
No harp, this halo's going to hang me
Like a devil, like an angel without wings
No harp, this halo's going to hang me
Halo's going to hang me

Dear sister
I really miss her
You didn't think it was working out
You said once I was feeling so lost
Have I ever looked found?
